June 9, 2008

Dear Valued Customer:

This letter is in response to your request for information concerning the status of FMC's Soda Ash Light with regard to the EPA Section 112 Hazardous Air Pollutant list. Following are data for metal compounds in the product:

	<u>ppm</u>
Antimony Compounds	0.4
Arsenic Compounds	0.2
Lead Compounds	0.7
Manganese Compounds	0.6
Nickel Compounds	0.45

The manufacture of FMC's Soda Ash Light is based on the refining of trona, a naturally occurring mineral extracted from an underground mine. Product purity is >99% with trace naturally occurring mineral content. This guarantee continues with the product only as long as the product remains in the original unopened container from FMC's plant in Green River, Wyoming.

Please contact me at (307) 872-2271 if you have any questions.

Sincerely,

Steve Hickerson
FMC Corporation
